the World Union of International Sports Federations

The IDBF is pleased to inform all crews competing at the 2015 ECCC in Divonne, France that thanks to the generosity of the IDBF Special Partner, Peisheng Boats, Shanghai, that nine (9) IDBF Spec 1222 Standard Racing Dragon Boats, have been sent from China from the IDBF Development Boats Pool, for crews to race at the ECCC. These boats will then go to new and developing EDBF Member Countries in Eastern Europe, such as Armenia and Georgia, to help them develop the Sport in their own areas.

These boats are part of the fleet of 12 Standard and 12 Small Boats being supplied by Peisheng Boats for the ECCC and are being sent free of charge to the Divonne.

There will be no Hire Fee charged to ECCC crews for the use of this fleet of boats and the balance of 3 Standard Boats and the 12 Small Boats will be offered to competing crews and EDBF Members, at highly discounted prices before and after the actual Championships – see a separate information leaflet sent to all ECCC crews and EDBF Members, for details.

With regard to the 9 Development Boats from the ECCC, for the EDBF Members in Eastern Europe, the IDBF have asked the EDBF to add Euro 10.00, per participant at the ECCC, to the EDBF Registration Fee. This one off levy will be used to assist the EDBF Members receiving the Development Boats with the cost of collecting them from Divonne and transporting them to their home Countries.

If competing crews do not wish to support their colleagues in this generous way, then they must inform the EDBF Chairman in writing and the Euro 10, per person, will be deducted from the Registration Fee total, as will be notified in Information Bulletin No.3, for the crew concerned.

I do hope that you will support our new and developing Member Countries in this way and look forward to seeing you in Divonne at the 2015 ECCC.

Yours in Dragon Sport,

Mike MacKeddie-Haslam

IDBF President
